CancelApply NowCheck EligibilityRajasthanGreen HouseCropsFarmerHorticulturalDetailsThe Green House Scheme under the  
Agriculture Department of Rajasthan Provides the benefit of subsidy on greenhouses and earn more income by cultivating horticultural  
crops like vegetables, flowers, fruits, etc. by controlling the agro-climatic factors, temperature, humidity, and sunlight.A greenhouse is a  
hut-like structure made of glass or polythene. Plants are grown inside it by controlling the environment. Where certain types of crops  
cannot be grown in the open due to extreme cold, these crops can be easily grown by using greenhouses. In case production of crops is  
not possible due to excessive heat, crops can be grown in greenhouses. In this way, it becomes easier for farmers to grow crops in any  
season through greenhouses. Greenhouses are mostly used for the cultivation of fruits, flowers, and vegetables. Through this, good  
production can be achieved especially in vegetable farming.ï»¿Other important pointsThe construction of the greenhouse can be started  
only after the administrative approval/work order is issued by the Horticulture Department.After construction, verification will be done  
by the committee formed.Payment of grant amount directly into the bank account of the farmer or to the producer firm based on written  
consent of the farmer.BenefitsFor areas up to a maximum of 4,000 square meters, farmers will receive subsidies grant based on approved  
rates or department-specified unit costs, whichever is lower.General-category farmers : 50% grant.Small, marginal, scheduled caste, and  
scheduled tribe farmers : 70% grant.The farmers of Scheduled Tribe areas and all the state's small and marginal category farmers : 25%  
additional grant.EligibilityThe applicant must be a native of Rajasthan.The applicant should be a Farmer.The applicant must have  
agricultural land ownership and irrigation sources.Application ProcessOnlineRegistrationStep-1: Applicant have to visit the official
