Madilu Programme is a comprehensive initiative implemented by the government to uplift rural communities by providing them with the
necessary skills and resources to improve their livelihoods. The program primarily focuses on skill development, entrepreneurship, and
capacity building. By equipping individuals with relevant skills, such as agricultural techniques, handicraft production, and small
business management, the Madilu Programme aims to create sustainable income-generating opportunities within rural areas.ï¿Through
targeted training sessions, workshops, and mentorship programs, participants are empowered to harness their potential and establish
small-scale enterprises. The Madilu Programme also facilitates access to micro-financing options and provides guidance on market
linkages, enabling participants to establish viable businesses and gain financial independence. Additionally, the program emphasizes the
importance of gender equality and social inclusion, ensuring that marginalized groups have equal access to opportunities and
benefits.BenefitsEmpowerment of rural communities through skill development and entrepreneurship.Creation of sustainable livelihoods
and reduction of poverty.Enhancement of social and economic well-being in rural areas.Increased income-generating opportunities for
participants.Access to micro-financing options and market linkages.Promotion of gender equality and social inclusion.Strengthening of
rural economies and local industries.EligibilityIndividuals residing in rural areas are eligible to participate.Participants should have a
willingness to learn and engage in skill development activities.There is no age restriction for participation in the program.Both men and
women are encouraged to apply.Participants should demonstrate an interest in entrepreneurship and improving their
livelihoodsExclusionsUrban areas are not eligible for participation in the Madilu Programme.The program does not provide direct
financial grants or subsidies.Large-scale commercial enterprises are excluded from the scope of the program.Application
