Only one person (14 - 60 years of age) per eligible household would be considered for training. Priority would be given to Non-smartphone users, Antyodaya households, college drop-outs, and Participants of the adult literacy mission; Digitally illiterate school students from class 9th to 12th, provided facility of Computer/ICT Training is not available in their schools. Preference would be given to SC, ST, BPL, women, differently-abled persons, and minorities.ï»¿The Scheme is aimed at empowering the citizens in rural areas by training them to operate computer or digital access devices (like tablets, smartphones, etc.), send and receive e-mails, browse the Internet, access Government services, search for information, and undertake digital payment, etc. and hence enable them to use the Information Technology and related applications, especially Digital Payments to actively participate in the process of nation building. Thus the Scheme aims to bridge the digital divide, specifically targeting the rural population including the marginalized sections of society like Scheduled Castes (SC) / Scheduled Tribes (ST), Below Poverty Line (BPL), women, differently-abled persons, and minorities.BenefitsThe Scheme is aimed at empowering the citizens in rural areas by training them to operate computers or digital access devices (like tablets, smartphones, etc.), send and receive e-mails, browse the Internet, access government services, search for information, and undertake digital payment, etc. and hence enable them to use the Information Technology and related applications, especially Digital Payments to actively participate in the process of nation building.On average a target of 200-300 beneficiaries per Gram Panchayat is envisaged. The actual target for the Gram Panchayat would be decided by the District eGovernance Society (DEGs) chaired by the District Magistrate, keeping in view the size of the district, population, local requirements, etc. Attempts shall be made to provide full Digital Literacy to the villages covered under Pradhan Mantri Adarsh Gram Yojana.Setting up of the Training Centres in the identified Districts/ Blocks/ Gram Panchayats.Delivery of content through mobile phones is proposed as a supplementary facility that can be accessed by a large number of neo-IT literates to refresh content learned during the physical training mode.ï»¿The Digital Literacy Training CourseTotal Duration of the Course: 20 Hoursï»¿Broad Content outline:Module NameIntroduction to Digital DevicesOperating Digital DevicesIntroduction to the InternetCommunications using the InternetApplications of the Internet (include citizen-centric services and; Use of digital financial tools for undertaking cashless transactions)ï»¿Learning Outcomes / Competency Standards:Understand the basics (terminology, navigation, and functionality) of digital devicesUse digital devices for accessing, creating, managing, and sharing informationUse the Internet to browse in an effective and responsible mannerUse technology to communicate effectivelyCarry out cashless transactions using digital financial tools (USSD/ UPI/ eWallet/AEPS/ Card/ PoS)Use Digital LockerUse online citizen-centric servicesAppreciate the role of digital technology in everyday life, social life, and workï»¿The content generation/collation/management/aggregation â€" the creation of the content bank, etc would be carried out by CSC-SPV in consultation with various stakeholders as per the following:ï»¿The content developed for the purpose of digital literacy training would be made available in 22 scheduled languages of India apart from English. A mobile â€˜appâ€™ would be made available in 22 scheduled languages so that training content can be downloaded and re-used as and when needed.For persons who cannot read and write, audio/visual/touch, etc.-based content would be developed.
